### *FEE TYPES:*

**Registration Fee.** Subscriber shall pay a one-time Registration Fee at the time that it registers a Project and/or opens an Account in the Registry, which Registration Fee will be based upon the size of Generating Unit and/or the type of Account(s) opened by Subscriber. If Subscriber is registering more than one Project, Subscriber will pay a separate Registration Fee for each Project registered.

**Subscription Fee.** Subscriber shall pay an annual Subscription Fee, payable at the time that it registers in the Registry and in January of each subsequent calendar year (except for Electric Service Provider accounts), which Subscription Fee will be based upon the size of any Project registered and the type of Account maintained by Subscriber. If Subscriber registers more than one Project, Subscriber will pay a separate Subscription

<sup>1</sup> Account Registration Fee is waived for a Project Account that registers only one Nano Project in MIRECS.

Fee for each Project registered. Electric Service Provider Subscription fees will be billed at the beginning of each quarter.

**Electric Service Provider Fee.** If Subscriber is an Electric Service Provider in Michigan, Subscriber will pay a fee per MWh of total retail load served by Subscriber in Michigan in the immediately preceding calendar year.

*ACCOUNT TYPES:*

- **Michigan Electric Service Provider Account:** This type of Account can hold, transfer (outgoing and incoming), and retire credits. A Michigan Electric Service Provider Account can also register and maintain Projects and have credits issued to it for its projects. A Michigan Electric Service Provider Account is the only type of Account that can retire credits for compliance with the Michigan Renewable Energy Standard.
- **Non-profit Wholesale Power Provider Account:** A non-profit entity that supplies wholesale electric power to one or more Michigan Electric Service providers which maintain accounts on MIRECS. This type of Account can hold, transfer (outgoing and incoming), and retire credits. This Account type can also register and maintain Projects and have credits issued to it for its projects.
- **Project Account:** This type of Account can register Projects and have credits issued to it for its projects. A Project Account can hold, transfer (only outgoing transfers), withdraw and Retire credits. A Project Account cannot receive transfers from other parties.
- **General Account:** This type of Account can hold, transfer (outgoing and incoming), and retire credits. A General Account can also register and maintain Projects and have credits issued to it for its projects.
- **Retail Purchaser Account:** This type of Account is for retail purchasers of credits. A Retail Purchaser Account can hold, accept incoming transfers, and Retire credits. They can also register and maintain projects that are under 1MW in capacity and have credits issued in their Account. A Retail Purchaser Account cannot make outgoing transfers.
- **Qualified Reporting Entity (QRE)/ Verifier Account:** An Account Holder with a QRE Account is assigned to a project and is responsible for verifying generation information from that project. MIRECS tracks the specific types of projects for which QRE's are approved to provide services, ensuring that they are suitably qualified and accredited. The QRE Account cannot hold credits.
